## HISTORY OF TECHNO

- Techno is a term used for electronic dance music, mainly instrumental, where the role of a rhythm tends to be more important than musical parameters. Techno is faster than house (126-130 BPM) and uses more intensive synth samples. Experts say that the genre is a mixture of American funk and the European synthesized music often combined with jungle rhythms. There are many variations and subgenres that emerged from or within techno music, such as rave, trance or gabba; however it is the Detroit sound, that is known as the original one.
- Techno as dance genre is a competitive form of club dancing culture. It is the understanding of the club culture which lays at the basics of techno dance and which should be reflected in dancer's movements and choreography. Typical moves used in techno are as follows:
  - ✓ Bounce - characteristic feature of rave dancing in early 90's; bounce can be described as moves of feet back and forward while the trunk moves back and forward in the opposite direction as if it was receiving the powerful sound wave;
  - ✓ Chest and hands movements (the idea of Leading Hand amplified by points and poses, typical for electro (tecktonik);
  - ✓ Oppositional circular interaction of trunk and feet; characteristic for house;
  - ✓ Various types of waves (waving and liquid);
  - ✓ Hand movements (vogue, king tut, liquid, waacking and locking);
  - ✓ Pops - shifting from one foot to another with the slight lifting of a hip;
  - ✓ Criss-cross, pas-de-drill, triplet and farmer (characteristic for house);
  - ✓ Up rocking and top rocking;
  - ✓ Footwork typical for house style;
- Dancer shows his/her preparation through execution of the choreographed piece that should not be a sequence of micro-movements without coordination but a smooth sequence of both fluid, fast and coordinated steps supported with good technique, body motion expressiveness and a proper costume.

## COMMON RULES

- For all the situations not mentioned in these regulations, decisions will be made by the RESTRICTED TECHNICAL COMMITTEE and the IDF GENERAL SECRETARY.
- Dancer's age is considered with referral to the calendar year (1st January - 31st December). Dancer who participates in Ranking Competition that starts in October will be considered with referral to the following calendar year (which means one (1) year older) and age category are divided as follow:
  - ✓ **MINI:** All dancers from the age of six (6) to the age of nine (9) (Solo – Duo – Couples – Small Groups – Formations - Production);
  - ✓ **YOUTH:** All dancers from the age of ten (10) to the age of thirteen (13) (Solo – Duo – Couples – Small Groups – Formations - Production);
  - ✓ **JUNIOR:** All dancers from the age of fourteen (14) to the age of sixteen (16) (Solo – Duo – Couples – Small Groups – Formations - Production);
  - ✓ **ADULT:** All dancers from the age of seventeen (17) (Solo – Duo – Couples – Small Groups – Formations - Production);
- Having reached the age limit for each category, dancers pass to the older category automatically.
- Beats per minute of music pieces must be as follows:
  - ✓ **MINI: 32 – 34 BPM**
  - ✓ **YOUTH – JUNIOR - ADULT: 34 – 36 BPM**
- Music piece may represent only and exclusively the style of **Techno** and must be in accordance with the following requirements:
  - ✓ Duration and pace limits respected for each category;
  - ✓ Visibly exposing dancer's: Start Number, Nationality, Name of a Club/School, Title of the Presentation, Duration, Name and Surname, Discipline as well as Age and Dance Category;
- 'Beat' is a basic time unit of a music piece. The 'beat' is the pulse in the rhythm of a song. Tempo (pace) of a music piece is indicated in beats per minute (BPM). In order to indicate music pace one needs to count beats over the time of one (1'.00) minute and divide them by four (4). **EXAMPLE:** one counted 150 beats over the time of one minute. In order to indicate music pace the following equation should be used: **150 : 4 = 37,5 BPM**. This means that music pace of the music piece is 37,5 beats per minute. To dance '**in time**' means to follow the beats (**one**, two, **three**, four) with body motion (arms, shoulders, head etc.) and execution of figures. If a dancer does not follow the beats, which means moves faster or slower than has been determined by the beats, it means he/she dances '**out of time**'. A very important element of dancer's performance is 'Interpretation'. Interpretation is connected to musical melody. Melody is a sequence of musical notes arranged in succession, in particular rhythmic patterns of changing events, to a form of a recognisable unit. Interpretation should be understood as dancer's ability to adapt and apply movements and steps into the melody;
- Who fail to comply following rules:
  - ✓ **Dancer without start number;**Will be penalized of 5 (five) points.
- Who fail to comply following rules:
  - ✓ **Music over time limit;**
  - ✓ **Music over/under Beats per minute (BMP);**

  - ✓ **Dancers who use scenography or set (Stage Decoration);**
  - ✓ **Use of accessories and props;**
  - ✓ **Dancers who use any other sort of music different than Techno;**
  - ✓ **Dancers who don't enter on the stage after third call;**Will be entered on last place.
- Dancers are allowed to perform acrobatic and gymnastic elements, including the ones typical for Break Dance. There are no restrictions regarding the acrobatic elements executed by Youth, Junior or Adult dancers; all acrobatic elements may be performed. Dancers who participate in Mini age category are allowed to perform only the gymnastic

and acrobatic elements described in the IDF Technical Booklet "Safety Level MINI". In the case when the rule is not respected, the dancer will be entered on last place. Execution of acrobatic elements is optional and should not influence adjudication.
